ABOUT US

Lalica Engineering Limited is a dynamic and forward-thinking engineering firm specializing in delivering high-quality mechanical, electrical, and industrial solutions. We are committed to excellence, innovation, and reliability, providing tailored services that meet the evolving needs of commercial, industrial, and institutional clients.

With a strong technical foundation and a results-driven approach, we ensure efficient project execution, long-term performance, and client satisfaction across all our service areas.

OUR MISSION

To provide professional, reliable, and innovative engineering solutions that enhance operational efficiency, safety, and sustainability for our clients.

OUR VISION

To be a leading engineering solutions provider recognized for quality, integrity, and technological advancement in industrial and commercial sectors.

– PRODUCTS & SERVICES –

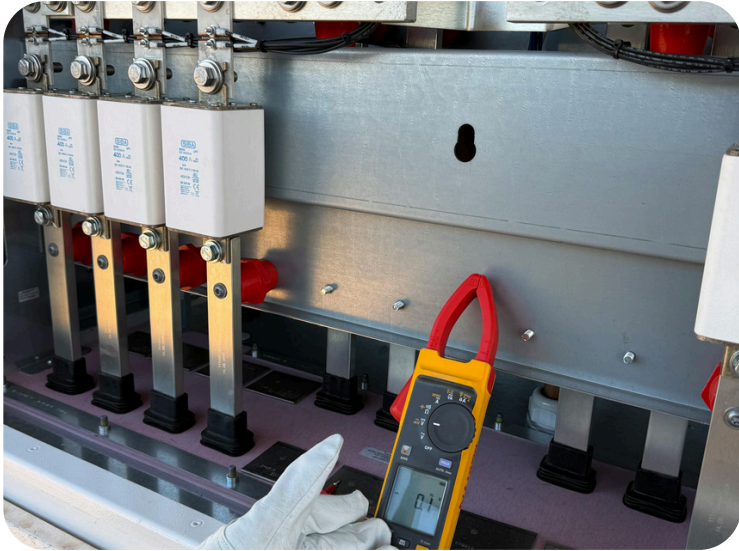

At Lalica Engineering Limited, we deliver integrated engineering solutions across four key areas. Our services are designed to ensure efficiency, reliability, and long-term performance for industrial and commercial operations.

1. Electrical/ Automation Engineering.

- **Electrical installations**

We deliver safe and efficient electrical installations tailored to meet the demands of industrial facilities and commercial spaces, ensuring compliance with all standards.

- **Power Distribution Systems**

We design and implement reliable power distribution systems that ensure consistent energy flow, optimal load management, and operational stability.

- **Control Panels & Switchgear Installation**

We install and configure high-quality control panels and switchgear to enhance system control, protection, and overall electrical performance.

- **Fault Diagnosis & System Maintenance**

We provide rapid fault detection and professional maintenance services to minimize downtime and keep your electrical systems running efficiently.

2. Mechanical Engineering

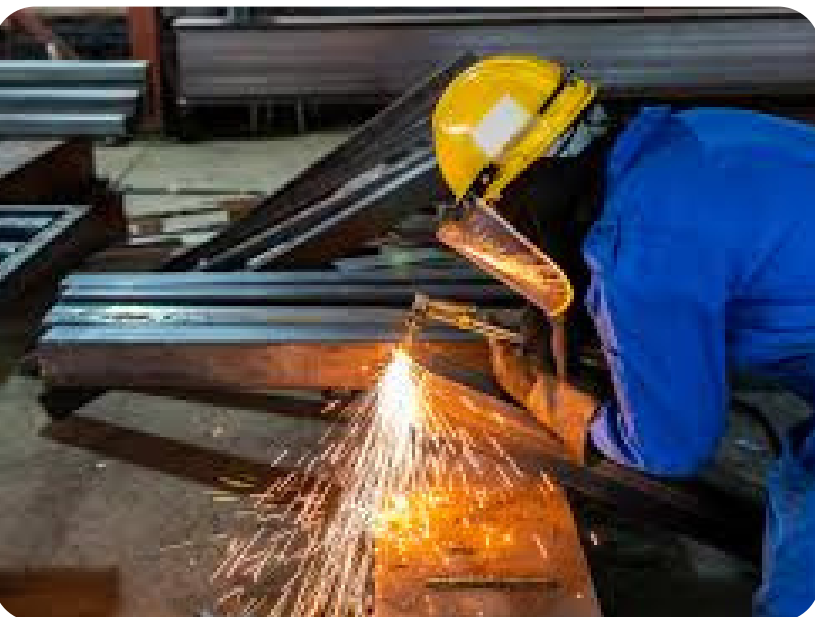

- **Plant installation**

We support smooth plant operations through technical assistance, system optimization, and continuous production line maintenance.

- **Fabrication & Assembly of Components**

We design, fabricate, and assemble high-quality mechanical components tailored to meet specific operational and industrial requirements.

2. Refrigeration & HVAC Solutions

- **Cold Room Installation & Servicing**

We support smooth plant operations through technical assistance, system optimization, and continuous production line maintenance.

- **Air Conditioning Systems**

We design, fabricate, and assemble high-quality mechanical components tailored to meet specific operational and industrial requirements.

WHY CHOOSE US

- 01** Our skilled professionals bring hands-on experience and technical expertise across electrical, mechanical, refrigeration, and automation systems.
- 02** We are committed to completing every project on time without compromising on quality or safety standards.
- 03** We offer end-to-end engineering services, providing seamless solutions from design and installation to maintenance and support.
- 04** Our solutions are designed to maximize efficiency while minimizing operational and maintenance costs.
